

RKS - III ROTARY KNIFE SHARPENER

The **SIMMONS RKS-III ROTARY KNIFE SHARPENER** has been designed specifically for smaller circular blades, and for those sharpeners in need of several blades to sharpen the same diameter. A Blade Notching Assembly or Blade Sizer Assembly is an optional feature.

The **RKS-III** has an optional Blade Notching Assembly, blades can be notched as required. A 1/32" notching disc is included. With an optional Blade Sizer Assembly, up to ten 1/8" thick blades (total 1-1/4" thick stack) can be ground to the same diameter. Each blade can then be sharpened as needed. Unlike others, the **RKS-III** does not anneal the edge of the blade from overheating.

Features:

- Bevel Gauge for Easy & Accurate Selections
- Hones Exact, True Radial Center of the Blade
- Single-Bevel Sharpening Attachment
- Simple to Operate
- Easy Belt Changes
- Powered by 1/2 HP Motor
